PROJECTS

ORBITIQ | Python, FastAPI, React, TypeScript, Claude, AWS Bedrock — Oct 2026
Fullstack Developer / Backend & AI Lead

- Placed 2nd Runner-Up at the RELX AI Summit Academe Hackathon 2026 with a three-person team, delivering a working end-to-end invoice-review prototype in about five hours.
- Led the FastAPI backend and AI workflow, combining rule-based checks for missing POs, amount mismatches, and duplicate invoices with Claude explanations that keep the final decision with the analyst.

DUELY | React Native, Expo, TypeScript, Supabase, Google ML Kit, Gemini — Aug 2026 – Present
Founder, Product & Technical Lead

- Lead a three-person team building an Android-first student organizer that turns assignment photos into editable tasks through on-device OCR and optional, consent-based Gemini extraction.
- Backed the active beta with 320 automated tests; a controlled 12-image OCR evaluation reached 99.5% token accuracy and flagged every ambiguous deadline.

ICSLINK | React, TypeScript, Supabase, Cloudflare Pages — Sep 2026
Development Lead

- Led a three-person, two-week sprint to build the Institute of Computer Science's event platform for registration, QR ticketing, attendance, and exportable reports.
- Used by 120 students across its workshops, processing about 240 check-in and checkout scans, backed by 75 automated tests and 44 Playwright browser scenarios.

WAVE & WISH | Python, Pygame, OpenCV, MediaPipe — Capiztahan 2026
Development Lead and Overall Team Lead

- Led a six-person team in delivering a touchless gesture-controlled game within seven days; engineered its hand tracking, dynamic difficulty, prize management, and Windows deployment systems.
- Served 280+ players, distributed 170 prizes, and completed a seven-hour public event with zero crashes.

ILOILO FARMERS HUB | React, TypeScript, Firebase, Google Vision, Face++ — Oct 2025 – Apr 2026
Backend Lead and Frontend Contributor

- Owned all backend development for a four-member team, implementing transactional inventory, authentication, security rules, protected Cloud Functions, AI-assisted KYC, and real-time buyer–farmer messaging.
- Interviewed 20+ farmers to inform requirements and validated five development test orders and media uploads up to 15 MB.

E-SERBISYO RIZAL | React, TypeScript, Firebase, Gemini API — Feb 2025 – May 2025
Backend Lead and API Integration Owner

- Built a multilingual Gemini chatbot that answered 20 common barangay-service questions without staff assistance.
- Validated five digital-service workflows with 15 test participants at a barangay hall while maintaining zero operating cost through free service tiers.

PUSA RUN | Python, Pygame, OpenCV, MediaPipe — 2026
Game Developer & Computer Vision Engineer

- Programmed a campus-inspired endless runner for a four-person academic team, translating upper-body movement into lane changes and jumps, with full keyboard controls as a fallback.

LEADERSHIP & EXPERIENCE

INSTITUTE OF COMPUTER SCIENCE
Vice President for Technology — June 2026–Present

- Lead the tech team for a six-workshop pathway on GitHub, AI, web, and game development serving 120+ students; taught the GitGud GitHub workshop and organized the rest.
- Led development of ICSLink, the institute's event platform, replacing paper attendance sheets and manual spreadsheets for organizers and members.

AUGUSTINIAN DEVELOPERS SOCIETY

Web Development Lead — June 2026–Present
Senior Developer — August 2025–June 2026

- Lead a six-person team building the organization's website; own the Next.js frontend, reusable GSAP animations with reduced-motion support, and Sanity CMS integration.
- Developed ML models, backend systems, and pitches for top-10 AIFEST finishes in 2025 and 2026; helped deliver AI-literacy training to 50+ public-school students.

6-BYTE STUDIOS

CEO / Full-Stack Developer — June 2025–Present

- Founded a student studio; led client discovery, pricing, contracts, and on-time delivery of two paid game commissions.
- Built OpenCV gesture controls for games including Praise and Pray, used by about 20–40 church participants each weekend day.

HOLOTECH SOCIETY

Vice Chairperson — External — June 2025–2026

- Mentored a junior development team on backend architecture and led quality assurance for CSITeach, the society's student mentoring platform.

AWARDS & HACKATHONS

- 2nd Runner-Up, RELX / Reed Elsevier Philippines AI Summit Academe Hackathon (October 2026) for OrbitIQ.
- Top-10 finishes at AIFEST in 2025 and 2026 with the Augustinian Developers Society.
- Participant: SIKAPTALA National Hackathon; Ready, Spark, Charge 2026; DICT Philippine Startup Challenge XI (October 2026).

EDUCATION

UNIVERSITY OF SAN AGUSTIN

BS Computer Science — Expected May 2027

Relevant Coursework: Data Structures & Algorithms, Database Management, Software Engineering, Web Development, Cloud Computing
OJT Requirement: 168 hours

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML, CSS
Backend & Database: Node.js, FastAPI, Firebase, Firestore, Cloud Functions, Supabase, PostgreSQL, MySQL, SQLite, REST APIs
Frontend & Mobile: React, Next.js, React Native, Expo, Vue.js, Tailwind CSS, Bootstrap, Vite
AI & Data: Claude (AWS Bedrock), Gemini API, Google Vision, OpenCV, MediaPipe, pandas, Jupyter, Power BI, Excel
Cloud & Tools: AWS, Google Cloud, Cloudflare Pages, Git, GitHub, Playwright

CERTIFICATIONS

GitHub Foundations · DataCamp Data Analyst Associate · DataCamp SQL Associate · DataCamp Python Developer Associate · DataCamp AI Fundamentals · DataCamp Introduction to Data Engineering · AWS Foundations of Prompt Engineering · Anthropic AI Fluency · Anthropic Claude 101 · Anthropic Claude Code 101 · Cisco Python Essentials 1 · Cisco Introduction to Data Science · Cisco Networking Basics · Cisco Introduction to Cybersecurity · Docker & Kubernetes
